About Us

Founded in 2020, Mondofi (mondofi.com) creates consumer-driven enterprise management tools, for the Car Share, Property Technology & Real Estate industries.

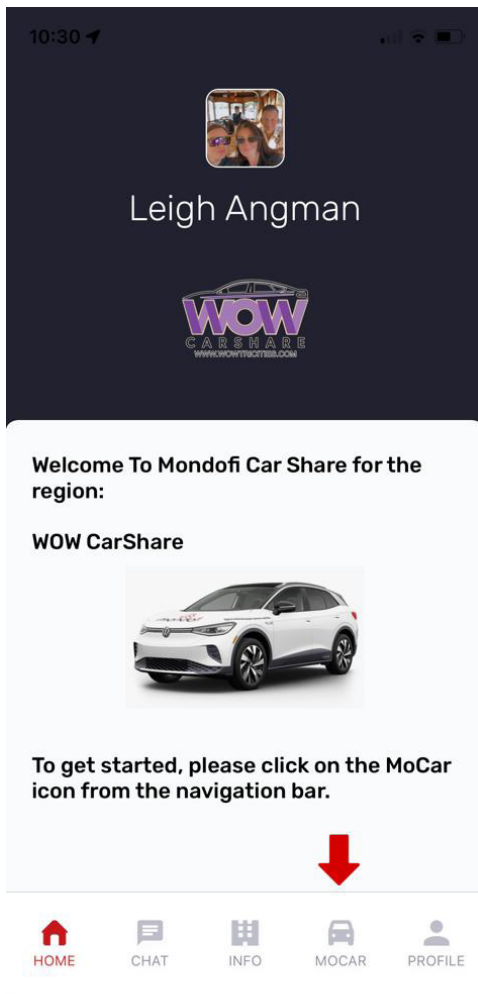

Our station-based car share software is elegant & easy to use while powerful enough to operate a fleet of hundreds of vehicles.

Mondofi also manufactures & deploys elegant touchscreen access control entry phones, helping modernize an industry that is predominantly relying on technology that is 3-4 decades old.

In addition, the company's consulting division focuses on access control security planning and architectural markup for pre-construction, multi-family residential buildings along with the installation & maintenance of CCTV security cameras, access control card readers and entry phones in existing buildings.
